📍 Pune Maharashtra India

### SUMMARY

Aspiring Entry-Level Software Developer with a good foundation in software development, testing, and networking protocols. Eager to apply technical skills and innovative problem-solving abilities to contribute to dynamic projects. Passionate about continuous learning and adapting to new technologies, with a commitment to delivering high-quality results. Ready to embark on a professional journey and make a meaningful impact in the tech industry.

### EDUCATION

Master of Technology	06/2023 - 06/2025
BITS Pilani	Pilani, India
Bachelor of Science	06/2019 - 06/2022
Amity University	Mumbai, India
HSSC	03/2016 - 03/2017
Shri Damodar Higher secondary School	Vasco Da Gama Goa
SSC	03/2014 - 03/2015
Shri Damodar Higher secondary School	Vasco Da Gama Goa

### BOOTCAMP

Frontend Developer	07/2023 - 05/2024
Sharpener	Bangalore

#### Tech Industry

- Proficient in JavaScript, enabling dynamic and interactive web functionalities.
- Experienced with modern JavaScript frameworks and libraries, including React.js and Redux.
- Created various projects using these technologies, such as an Expense Tracker and a Password Manager.
- Mastered HTML5 and CSS3 to create responsive, visually appealing web pages.

### PROJECTS & SKILLS

#### 💰 Expense Tracker

Developed an Expense Tracker application featuring user authentication (sign-in/sign-up), expense management, and premium subscription options. Implemented a secure and user-friendly interface for tracking daily expenses, and integrated a premium feature for advanced functionalities, enhancing user experience.

#### ⚙️ Password Manager

Designed and implemented a Password Manager application to securely store and manage passwords for various platforms. Utilized encryption techniques to ensure data security and provided an intuitive interface for easy password retrieval and management.

#### 🌐 Networking Using Python

Possess foundational knowledge of network protocols and the OSI model, with practical understanding of networking devices such as switches, hubs, and routers. Skilled in basic network setup and troubleshooting, ensuring efficient and secure data communication.

### SKILLS

Javascript · ReactJS · Redux ·

HTML/CSS · Python ·

Networking Protocol

### CERTIFICATION

#### React and Modern JavaScript

Covers hooks, contexts, and advanced components, offered by Udemy.

## CERTIFICATION

---

### Python for Network Engineer

network automation, scripting for configuration management, and interaction with APIs. Gained hands-on experience with libraries like Netmiko and NAPALM for efficient network operations offered by udemy.

## PASSIONS

---

### Web Application Development

Passionate about creating efficient and scalable web applications that enhance user experience.

### Passion for Coding

I enjoy solving problems and creating new things. Learning new technologies and building user-friendly applications excites me. My passion keeps me dedicated to improving my skills.
